## **Captivating Oceanic Waterscapes Vol.330**

Recognize stress. My central thesis is here that the empirical scientific character of antropological knowledge is guaranteed by the application of the principle of analogy: what a human being knows intuitively from of himself as a set of first-order predicates functions as starting point for his reflection, out of which he is able to deduce consequences by analogy between himself and other human beings, as a set of second-order predicates he applies extensively to .
